I. INTRODUCTION..... 1

II. LEGAL ARGUMENT ..... 7

**A. LEGAL STANDARD ..... 7**

**B. COUNTERCLAIMANT’S MOTION IS PREMATURE, AND THE COURT SHOULD NOT ACCEPT THE MOTION’S INVITATION TO DEPRIVE PETITIONERS OF SOUND AFFIRMATIVE DEFENSES AT THIS EARLY DATE..... 9**

**C. THE MOTION TO STRIKE THE TENTH AND FOURTEENTH AFFIRMATIVE DEFENSES FOR ASSUMPTION OF THE RISK IS PREMATURE AS THE CAUSE AND ORIGIN OF THE FIRE IS UNKNOWN..... 11**

        1. Assumption of the Risk is a Valid Affirmative Defense in this Case..... 11

        2. Counterclaimant’s Motion to Strike Affirmative Defenses Ten and Fourteen is Premature Because the Cause and Origin of the Fire is Unknown..... 12

**D. THE SIXTEENTH AND EIGHTEENTH AFFIRMATIVE DEFENSES PROPERLY INVOKE CALIFORNIA CIVIL CODE SECTION 3294..... 15**

        1. Decedent Was a Non-Seafarer Allegedly Injured In California Territorial Waters ..... 15

        2. Petitioners’ Sixteenth Affirmative Defense Is An Accurate Statement of the General Maritime Law Rules Regarding Vicarious Liability For Punitive Damages ..... 17

**E. THE TWENTY-THIRD AFFIRMATIVE DEFENSE SIMPLY RESTATES THE WELL-ESTABLISHED RULE THAT THE COURT MUST LOOK PRIMARILY TO LEGISLATIVE ENACTMENTS, SUCH AS THE DEATH ON THE HIGH SEAS ACT (“DOHSA”), FOR POLICY GUIDANCE WHEN ADDRESSING JUDGE-MADE REMEDIES AND RELIEF..... 19**

        1. *Miles* and the Recent *Batterton* Decisions Confirm Uniformity is the Rule ..... 19

**Gordon Rees Scully Mansukhani, LLP**  
 101 W. Broadway, Suite 2000

1 Plaintiffs in Limitation TRUTH AQUATICS, INC., GLEN RICHARD  
2 FRITZLER AND DANA JEANNE FRITZLER, INDIVIDUALLY AND AS  
3 TRUSTEES OF THE FRITZLER FAMILY TRUST DTD 7/27/92 (hereinafter  
4 “Petitioners”), as owners and/or owners *pro hac vice* of the dive vessel  
5 CONCEPTION, Official Number 638133 (hereinafter “CONCEPTION”), hereby  
6 submit their Memorandum of Points and Authorities in Opposition to  
7 Respondent/Counterclaimant CHRISTINE DIGNAM’s (“Counterclaimant”)   
8 Motion to Strike Affirmative Defenses From The Answer to Her Counterclaim  
9 filed in this Court on December 17, 2019 (Doc. No. 21).<sup>1</sup>

10 **I. INTRODUCTION**

11 In the Memorandum of Points and Authorities in Support of the Motion to  
12 Strike Affirmative Defenses, Counterclaimant’s attorneys echo media pundits and  
13 members of the maritime law plaintiffs’ bar who have been quick to criticize  
14 Petitioners for exercising their right to invoke the Limitation of Liability Act and  
15 Supplemental Rule F. They claim those laws are “anachronisms” that have no  
16 place in modern maritime law<sup>2</sup>. Moreover, despite Petitioners’ “strong reputation”  
17 in the dive boat industry<sup>3</sup>, they portray Petitioners as desperate, “bare knuckled”  
18

19 <sup>1</sup> Counterclaimant’s Memorandum of Points and Authorities I/S/O Her Motion to  
20 Strike Affirmative Defenses (Doc. 21-1) is referred to herein as the  
“Memorandum” or “Mem.”

21 <sup>2</sup> See, e.g., Mem. 1:22-23; see also, [https://www.arnolditkin.com/personal-injury-  
22 blog/2019/september/criminal-probe-into-california-boat-fire-begins/](https://www.arnolditkin.com/personal-injury-blog/2019/september/criminal-probe-into-california-boat-fire-begins/) (“In the days  
23 following the accident, Truth Aquatics used the Limitation of Liability Act of 1851  
24 to sue their employees and families of the victims. Though a common practice  
25 after disasters such as this, many experts question the law’s use of these situations.  
The Limitation of Liability Act is a law which was created to govern a different  
26 generation of maritime travel. Today, this 150-year-old law is used by vessel  
owners to avoid accountability for negligent behavior.”)

27 <sup>3</sup> “Truth Aquatics was the last boat you think would burn . . . The questions  
everyone is asking is: How did this fire start? And how and why did it spread so

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 brawlers who “barricaded themselves behind . . . a truly gothic remedy” in a  
2 “shameful” and heartless attempt by Petitioners’ insurers to avoid liability<sup>4</sup>. Mem.  
3 1:22-2:1.

4 Such arguments are nothing more than gratuitous hyperbole. The Limitation  
5 of Liability Act unquestionably remains the law of the land. The United States  
6 Supreme Court has consistently upheld the law for over 150 years, including in the  
7 context of personal injury or wrongful death claims. *See, e.g., Butler v. Boston &*  
8 *Savannah S.S. Co.*, 130 U.S. 527, 549 (1889). In *Butler v. Boston & Savannah S.S.*  
9 *Co.*, cited by Counterclaimant,<sup>5</sup> the U.S. Supreme Court unequivocally confirmed  
10 that the Act applies with full force in the circumstances presented here. *Butler*,  
11 130 U.S. at 549. “If we look at the ground of the law of limited responsibility of  
12 ship-owners, we shall have no difficulty in reaching the conclusion that it covers  
13 the case of injuries to the person as well as that of injuries to goods and  
14 merchandise . . . It extends to liability for every kind of loss, damage, and injury.  
15 This is the language of the maritime law.” *Id.*

16 Courts of the Ninth Circuit have also consistently recognized and upheld the  
17 Limitation of Liability Act in cases involving personal injury and wrongful death.  
18 *See, e.g., In Re Complaint and Petition of Blue Water Boating Inc.*, 2019 U.S. App.  
19 LEXIS 35994 (9<sup>th</sup> Cir. 2019) (examining whether admiralty jurisdiction attaches to

20 \_\_\_\_\_  
21 quickly?” [https://www.latimes.com/california/story/2019-09-19/the-conception-  
22 wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-  
23 fire](https://www.latimes.com/california/story/2019-09-19/the-conception-wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-fire)

24 <sup>4</sup> *See, e.g.,* [https://www.deeperblue.com/legal-expert-weighs-in-on-conception-  
25 owners-liability/](https://www.deeperblue.com/legal-expert-weighs-in-on-conception-owners-liability/) (“The owners have now rushed into Federal Court and have filed  
26 a limitation proceeding, a case under an antiquated 1851 Federal Statute . . . This is  
27 a shameful tactic.”)

28 <sup>5</sup> The language cited to by the Memorandum comes from the Syllabus, which is not  
part of the Court’s Opinion. *See*, Mem. 1:23 n.2; *see also*,  
[https://www.americanbar.org/groups/public\\_education/publications/teaching-legal-  
docs/how-to-read-a-u-s--supreme-court-opinion/](https://www.americanbar.org/groups/public_education/publications/teaching-legal-docs/how-to-read-a-u-s--supreme-court-opinion/)

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 a paddleboard accident so as to allow the petitioner to go forward with limitation  
2 proceeding); *In Re Mission Jet Sports LLC*, 570 F.3d 1124 (9<sup>th</sup> Cir. 2009) (finding  
3 that a jet ski incident occurred on navigable waters such that the Limitation of  
4 Liability Act should apply); *In Re Morgan*, 2018 U.S. Dist. LEXIS 85980 (S.D.  
5 Cal. 2018) (determining that an incident involving a recreational boat on the  
6 Colorado River provides subject matter jurisdiction for a petition for limitation of  
7 liability.) In fact, the Ninth Circuit has applied the Act to limit a vessel owner’s  
8 liability where limitation claimants could not prove what caused the loss in  
9 question, even after the shipowner had conceded that its crew was negligent. *See*,  
10 *Western Pioneer, Inc. v. Int’l Specialty, Inc., (In re Bowfin M/V)*, 339 F.3d 1137,  
11 1138 (9<sup>th</sup> Cir. 2003) *citing Carr v. PMS Fishing Corp.*, 191 F.3d 1, 4 (1<sup>st</sup> Cir.  
12 1999). And just recently, this Court applied it to enter default judgments as to  
13 claimants who failed to file and serve their claims within the applicable monitions  
14 period. *See, In re Won*, 2018 U.S. Dist. LEXIS 228774 at \*8, 10 (C.D. Cal. 2018).  
15 So, “[w]hile the Limitation Act has been criticized by some commentators in  
16 recent years as being outdated, it has not been repealed by Congress, and courts  
17 therefore continue to apply it.” *In re Glacier Bay*, 944 F.2d 577, 580 (9<sup>th</sup> Cir.  
18 1991).

19 Indeed, not only is the Limitation of Liability Act still “on the books,”  
20 Congress has chosen to keep it there despite calls that it be repealed. *See, Delta*  
21 *Country Ventures v. Magana*, 986 F.2d 1260, 1267 (9<sup>th</sup> Cir. 1993) (J. Kozinski,  
22 dissenting; internal citations omitted) (“[a]lthough Congress has acknowledged  
23 [the Ninth Circuit’s] suggestion that the Limitation of Liability Act be repealed . . .  
24 the statute remains on the books . . .”)

25 The present case, with 34 potential wrongful death claims, 5 potential  
26 personal injury claims, and a family-owned small passenger vessel whose owners  
27 were not on board the vessel at the time of the fire, presents *exactly* the type of

1 circumstances that the Act was designed to address. As discussed below, but for  
2 the Limitation of Liability Act, its concursus and injunction provisions, its *pro rata*  
3 distribution scheme, and the Court’s ability to retain jurisdiction to try damages in  
4 the event limitation is denied, the Petitioners would be overwhelmed.

5 Concursus and pro rata distribution lie at the very heart of the Limitation of  
6 Liability Act. Together, they provide (1) that all actions arising out of the events  
7 giving rise to the limitation action shall be stayed during the pendency of the  
8 limitation proceedings, (2) that any person making a claim against the shipowner  
9 must appear and assert their claim in the limitation action or be declared in  
10 contumacy and default, and (3) that, upon determination of the shipowner’s  
11 liability, available funds “shall be divided, pro rata . . . among the several claimants  
12 in proportion to the amounts of their respective claims.” Fed. R. Civ. P. Supp.  
13 Admiralty R. F(3)-(5), (8).

14 By way of example, crewmember Ryan Sims filed a Complaint in the  
15 Ventura County Superior Court on September 12, 2019. *See*, Declaration of James  
16 F. Kuhne, Jr. (“Kuhne Decl.”) at Exhibit A. That action was stayed by the Court’s  
17 Order Restraining All Suits and Directing Monition to Issue. *See*, Kuhne Decl.  
18 Exhibits B-C. Sims has since filed an appearance in the present Limitation Action,  
19 (Doc. 22), but as his State Court filing demonstrates that without the Act’s  
20 concursus and stay provisions, and Petitioners’ decision to invoke them, this  
21 litigation would quickly spiral unchecked into thirty-four separate wrongful death  
22 lawsuits and up to five personal injury lawsuits that could conceivably be filed in  
23 thirty-nine different venues, even in multiple States. Petitioners would be  
24 swamped trying to defend literally dozens of simultaneous proceedings, each of  
25 which would carry with it the risk of inconsistent judgments and conclusions of  
26 law. Moreover, the potential attorney fees and costs that would be required to  
27 defend thirty-nine separate wrongful death and personal injury lawsuits would be

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 prohibitive for most defendants, including the Fritzlers' small family business.  
 2 That multitude of litigation would also subject Petitioners to the risk of jury  
 3 verdicts that they could not possibly satisfy.

4 At the same time, but for the Act's *pro rata* distribution scheme, each of the  
 5 thirty-nine potential claimants would be forced to engage in a race to the  
 6 courthouse, as each award or settlement could reduce the amount of funds  
 7 available to compensate the other claimants who were not as quick to assert their  
 8 claims and rush to seek a judgment or settlement in their favor.

9 Lastly, even if the Court ultimately denies limitation, it would still have  
 10 discretion to retain jurisdiction over the claims. *In Re Complaint of Poling*  
 11 *Transport Corporation*, 776 F. Supp. 779 (S.D.N.Y. 1991) citing *Enercomp, Inc. v.*  
 12 *McCorhill Pub, Inc.* 873 F.2d 536, 545-546 (2nd Cir. 1989) (if "substantial  
 13 resources" have been committed, it is appropriate to retain pendent jurisdiction  
 14 over pendent claims even if the federal claim is dismissed); *see also, In Re*  
 15 *Paradise Holdings*, 795 F.2d 756, 763 (9<sup>th</sup> Cir. 1986) (noting that the district court  
 16 had inherent discretion to stay a Master's claim in state court that was not subject  
 17 to the limitation petition "or otherwise shape the limitation proceedings in a  
 18 manner that promotes the purposes of the Act," such as protecting against  
 19 depletion of insurance funds by the first party to race to court.) Such an exercise of  
 20 discretion by the Court would be proper in this case, considering the number of  
 21 claims that will likely be asserted, the potential damages at stake, and Petitioners'  
 22 limited resources. *See, id.*

23 But Counsel and the Memorandum posture the Motion as a "white knight"  
 24 that stands alone between the Petitioners and the "clutter" and "frivolity" that "will  
 25 vex every other victim who files a counterclaim" if the instant Motion is not  
 26 granted. *See, Mem.* 2:4-5, 7:19-22. Only by granting the instant Motion, the  
 27 Memorandum argues, can Petitioners' "shameful" conduct be deterred and

1 claimants' rights protected. *See, e.g., id.; see also,*

2 <https://www.deeperblue.com/legal-expert-weighs-in-on-conception-owners->  
3 [liability/](https://www.deeperblue.com/legal-expert-weighs-in-on-conception-owners-).

4 Those arguments ignore Petitioners' right to the benefits of the Federal  
5 Rules' "notice pleading" standard and their right to use the pleadings to frame the  
6 scope of permissible discovery. *See, Fed. R. Civ. P. 8(b)(1), 26(b)(1).* They  
7 ignore Congress' careful consideration of the Act and the procedures adopted,  
8 through Supplemental Rule F, to implement it. And they ignore the right of every  
9 litigant – including these Petitioners– to vigorously prosecute their case using all  
10 avenues available to them under the law. Those arguments have no place in this  
11 litigation.

12 Through the Proposed Order, Counterclaimant asks this Court to make  
13 factual and legal findings that are both unnecessary to the instant motion, and  
14 decidedly premature. *See, e.g., (Doc. 21-3) at 16:20-24, 6:11-15.* There is an  
15 ongoing investigation by the United States Coast Guard ("USCG"), the National  
16 Transportation Safety Board ("NTSB"), the Federal Bureau of Investigation  
17 ("FBI") and the Bureau of Alcohol, Tobacco, Firearms and Explosives ("ATF") to  
18 determine the cause and origin of the fire. Kuhne Decl. Exhibit D at 2 (last line).  
19 Media reports are teeming with speculation about the fire's origin and cause,  
20 claiming it may have been "an exploding or smoldering lithium-ion battery, a  
21 fraying connection cord or a mismatched charger."<sup>6</sup> Counterclaimant draws  
22 similar conclusions. *See, e.g., (Doc 18) at 5:15-6:11, 6:24-7:2.*

23 Unfortunately, no one has yet been able to determine what caused the fire on  
24 the CONCEPTION, where it originated on the vessel, how fast it spread, whether

25 \_\_\_\_\_  
26 <sup>6</sup> *See, e.g.,* [https://www.latimes.com/california/story/2019-09-19/the-conception-](https://www.latimes.com/california/story/2019-09-19/the-conception-wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-fire)  
27 [wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-](https://www.latimes.com/california/story/2019-09-19/the-conception-wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-fire)  
28 [fire](https://www.latimes.com/california/story/2019-09-19/the-conception-wasnt-built-to-power-the-personal-electronics-revolution-could-this-have-caused-fire)

1 arson, a flash fire, or an explosion may be to blame, or even the exact cause of  
 2 death of each passenger and crewmember. *See, e.g.*, Kuhne Decl. Exhibit D at 2  
 3 (last line). Until those facts are known, it would be premature to limit *any*  
 4 affirmative defenses, or the discovery upon which those defenses may rely. *See*,  
 5 Fed. R. Civ. P. 26(b)(1) (scope of discovery is framed by allegations in the  
 6 pleadings). For example, Claimants have the right to pursue state law remedies for  
 7 the death of nonseafarers occurring in state territorial waters. *Yamaha Motor*  
 8 *Corp. v. Calhoun*, 516 U.S. 199, 202 (1995). But the Memorandum asks the Court  
 9 to find that Petitioners cannot assert state law affirmative defenses to those state  
 10 law remedies, despite neither Counterclaimant, nor any subsequent claimant,  
 11 making their choice of remedies known. *See*, (Doc. 21) 2:7-12. Restricting  
 12 Petitioners' available defenses and limiting their right to discovery before this  
 13 claimant (or the others who are likely to follow) have chosen their remedies would  
 14 be a decidedly unfair and premature result.

15 The Limitation of Liability Act has stood the test of time because it provides  
 16 a fair, equitable, and practical approach to mass-casualty maritime claims, and  
 17 because it ultimately benefits everyone with a financial stake in the proceedings.

## 18 **II. LEGAL ARGUMENT**

### 19 **A. LEGAL STANDARD**

20 Motions to strike affirmative defenses are “generally regarded with disfavor  
 21 because of the limited importance of pleading in federal practice, and because they  
 22 are often used as a delaying tactic.” *Neilson v. Union Bank of California, N.A.*,  
 23 280 F. Supp.2d 1101, 1152 (C.D. Cal. 2003); *Armstead v. City of Los Angeles*, 66  
 24 F.Supp.3d 1254, 1271 (C.D. Cal. 2014). The question of whether to strike  
 25 allegations rests within the sound discretion of the Court. *Neilson*, 290 F. Supp.2d  
 26 at 1152. In the event that under some contingency an allegation may raise an issue,  
 27 the motion should be denied. *Id. citing Wailua Associates v. Aetna*, 183 F.R.D.

1 550, 553-554 (D. Haw. 1998). Because so many factual issues in this matter  
 2 remain unknown, the affirmative defenses raised by Petitioners address specific  
 3 contingencies that may arise in this case, and they should be permitted to stand.

4 In the Ninth Circuit, “[a]n affirmative defense must be pleaded with  
 5 enough specificity or factual pleading to give plaintiff ‘fair notice’ of the  
 6 defense.” *Simmons v. Navajo County, Arizona*, 609 F.3d 1011, 1023 (9<sup>th</sup> Cir.  
 7 2010.)<sup>7</sup> Such “fair notice” requires only that an affirmative defense be described in  
 8 “general terms.” *Kohler v. Flava Enterprises, Inc.*, 779 F.3d 1016, 1019 (9<sup>th</sup> Cir.  
 9 2010.) An affirmative defense that sets out a “cognizable legal theory” is  
 10 sufficient. *Robertson v. Dean Witter Reynolds Co.*, 749 F.2d 530, 534 (9<sup>th</sup> Cir.  
 11 1984).

12 While not raised in their opening briefing, Counterclaimant may argue  
 13 that the *Twombly/Iqbal*<sup>8</sup> heightened pleading standard for complaints applies to  
 14 affirmative defenses. The 9<sup>th</sup> Circuit, however, has affirmed several times since  
 15 those cases were handed down that the pleading standard for affirmative defenses  
 16 in this Circuit is that of “fair notice.” *See, e.g., Simmons*, 609 F.3d at 1023; *Kohler*  
 17 *v. Flava Enterprises*, 779 F.3d at 1019. Likewise, the Central District of California  
 18 has noted the split among Districts in this Circuit and declined to apply the  
 19 *Twombly/Iqbal* standard to affirmative defenses. *See, Kohler v. Islands*  
 20 *Restaurants*, 280 F.R.D. 560, 565-566 (C.D. Cal. 2012); *see also, Lauter v.*  
 21 *Rosenblatt*, 2018 U.S. Dist. LEXIS 170422 at \* 4 (C.D. Cal. 2018). The *Island*  
 22 *Restaurants* court rejected the defendants’ argument that the *Twombly/Iqbal*

23 \_\_\_\_\_  
 24 <sup>7</sup> *Simmons* involved the question of whether a defense not raised in the answer  
 25 could be invoked in response to a claim, but the analysis regarding “fair notice” is  
 26 pertinent here and has been cited as applying to affirmative defenses actually stated  
 27 in a response.

<sup>8</sup> *Bell Atlantic Corp. v. Twombly*, 550 U.S. 544 (2007); *Ashcroft v. Iqbal*, 556 U.S.  
 662 (2009).

1 “plausibility standard” applied to affirmative defenses for several  
 2 reasons. First, even after *Twombly* and *Iqbal*, the Ninth Circuit has continued to  
 3 recognize the “fair notice” pleading standard for affirmative defenses. *Island*  
 4 *Restaurants*, 289 F.R.D. at 566 citing *Simmons*, 609 F.3d at 1023. Second, it  
 5 recognized that “the Supreme Court’s analysis in *Twombly* and *Iqbal* is itself  
 6 limited to pleadings under Federal Rule of Civil Procedure 8(a)(2).” *Id.* So  
 7 although FRCP 8(a)(2) requires “a short plain statement of the claim *showing* that  
 8 the pleader is entitled to relief, section 8(c) “only requires the responding party to  
 9 ‘*affirmatively state*’ its affirmative defenses.” *Id.* (emphasis in  
 10 original.) Petitioners’ affirmative defenses here meet the “fair notice” pleading  
 11 standard.

12 **B. COUNTERCLAIMANT’S MOTION IS PREMATURE, AND**  
 13 **THE COURT SHOULD NOT ACCEPT THE MOTION’S INVITATION TO**  
 14 **DEPRIVE PETITIONERS OF SOUND AFFIRMATIVE DEFENSES AT**  
 15 **THIS EARLY DATE**

16 Rather than decide the issues raised by the motion now, the Court should  
 17 defer its ruling until all parties have appeared and the factual and legal issues upon  
 18 which this litigation will turn have been more fully developed. Courts  
 19 unquestionably possess the inherent power to control their dockets and the general  
 20 flow of matters that come before them. *See, Ready Transp., Inc. v. AAR Mfg.*, 627  
 21 F.3d 402, 403-404 (9<sup>th</sup> Cir. 2010) (district court’s exercise of inherent power to  
 22 control its docket reviewed for abuse of discretion). That inherent power includes  
 23 the authority to defer ruling on motions to strike in order to promote party and  
 24 judicial efficiency. *See, e.g., Harrell v. City of Gilroy*, 2018 U.S. Dist. LEXIS  
 25 88500 at \*24-25 (N.D. Cal. 2018) (deferring ruling on a motion to strike in order to  
 26 consider motion’s arguments concurrently with subsequent motions by other  
 27 litigants).

1           Given the many crucial facts that remain unknown – including perhaps the  
2 most significant issue in this litigation, the cause and origin of the fire – this  
3 motion is premature. Also unknown is whether Counterclaimant or the thirty-seven  
4 other potential claimants who have not yet appeared will elect to pursue federal or  
5 state remedies, and under what theories and causes of action they will pursue them.  
6 The pleadings, including those to be filed by the claimants who have not yet  
7 appeared, will frame the scope of discovery in this litigation. *See*, Fed. R. Civ. P.  
8 26(b)(1).

9           An Order granting the Motion now could unfairly deprive Petitioners of  
10 potentially valid affirmative defenses long before all of the claims and relief being  
11 asserted against them become known. Such an Order at this time – before the facts  
12 upon which those claims and defenses will depend – could also dramatically  
13 prejudice Petitioners’ ability to obtain the discovery they will need to defend  
14 themselves against those as-yet unknown claims. *See, id.* Conversely,  
15 Counterclaimant has preserved her objections to the affirmative defenses in  
16 question, and she will suffer no prejudice if the Court defers its ruling. *See*, Fed. R.  
17 Civ. P. 12(f)(1).

18           Indeed, Petitioners made a good-faith offer to stipulate to extend  
19 Counterclaimant’s deadline to bring this Motion to July 31, 2020, thirty days after  
20 the monition period is set to expire. Kuhne Decl. ¶ 2. Had Counterclaimant  
21 delayed filing the Motion as Petitioners proposed, all parties would then have the  
22 opportunity to appear, and all the claims, damages, and affirmative defenses at  
23 issue would be known before the Motion was presented to the Court. The Court, in  
24 turn, would have the benefit of the “full picture” of the claims and defenses when  
25 ruling on the Motion. And both the parties and the Court would have the benefit of  
26  
27

1 the additional factual context that the ongoing agency investigations may yield  
2 between now and then.<sup>9</sup>

3 Whatever the rationale for bringing the Motion now, everyone involved –  
4 the Court, Counterclaimant, Petitioners, and the remaining claimants – will be in a  
5 vastly better position to address these issues after the monition period has expired  
6 and all parties have made their appearances. And with so much yet unknown, a  
7 ruling on the Motion before that time would be premature. The Court should  
8 exercise its broad discretion to defer its ruling on the Motion until all parties have  
9 appeared and the facts and the record are more fully developed or, alternatively,  
10 should grant Petitioners leave to amend. *See, Wyshak v. City National Bank* 607  
11 F.2d 724, 826 (9<sup>th</sup> Cir. 1979) (leave to amend should be freely given so long as  
12 there is no prejudice to the opposition party.)

13 **C. THE MOTION TO STRIKE THE TENTH AND FOURTEENTH**  
14 **AFFIRMATIVE DEFENSES FOR ASSUMPTION OF THE RISK IS**  
15 **PREMATURE AS THE CAUSE AND ORIGIN OF THE FIRE IS**  
16 **UNKNOWN**

17 1. Assumption of the Risk is a Valid Affirmative Defense in this  
18 Case

19 Counterclaimant suggests “the doctrine of assumption of the risk has no  
20 place in admiralty law.” *See, Mem. 14:4-15:23.* That view is overly simplistic, and  
21 at this stage, premature.

22 Assumption of the risk comes in two forms. The first, embodied in the  
23 Fourteenth Affirmative Defense, commonly referred to as “primary assumption of  
24 risk,” is a question of duty. It asks whether, “by virtue of the nature of the activity  
25 and the parties’ relationship to the activity, the defendant owes [a] legal duty to

26 <sup>9</sup> Similarly, Petitioners asked the Court to extend the deadline for claimants to file  
27 answers and claims in this action for several months beyond the 30 days provided  
28 by Supplemental Rule F(4). *See, (Doc. 4) 2:1-8.*

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 protect the plaintiff *from the particular risk of harm that caused the injury.*”  
 2 *Knight v. Jewett*, 3 Cal. 4<sup>th</sup> 296, 314-315 (1992) (emphasis added); *see also, Mosca*  
 3 *v. Lichtenwalter*. 58 Cal.App.4th 551, 553 (1997). The second, embodied in the  
 4 Tenth Affirmative Defense, referred to as “secondary assumption of risk,” arises  
 5 “where the defendant does owe a duty of care to the plaintiff, but the plaintiff  
 6 proceeds to encounter *a known risk* imposed by the defendant’s breach of duty.”  
 7 *Id.* at 315 (emphasis added). Under “primary assumption of risk,” the defendant  
 8 owes a duty only to avoid increasing the risks inherent in the activity in question,  
 9 and where it applies, it affords a complete defense to liability. *Id.* at 315-316.  
 10 “Secondary assumption of risk,” by contrast, is merged into the comparative fault  
 11 scheme such that the award, if any, is apportioned according to the relative  
 12 responsibilities of the parties. *Id.* at 315.

13 Counterclaimant advances what is essentially a “weight of authority”  
 14 argument, claiming that it is “apodictic that the doctrine of assumption of risk has  
 15 no place in general maritime law.” Mem. 14:6-10 (citation omitted). But federal  
 16 maritime law does not entirely displace state law; indeed, state law still applies  
 17 where not inconsistent with the federal scheme. *See, e.g., Yamaha*, 516 U.S. at  
 18 206. One such example is application of state law defenses to claims arising from  
 19 recreational maritime activities. *See, e.g., Mosca*. 58 Cal.App.4th at 553; *Stimson*  
 20 *v. Carlson*, 11 Cal.App.4th 1201; 1993 A.M.C. 1049 (1993); *Ford v. Gouin*, 3  
 21 Cal.4th 339; 1993 A.M.C. 1216 (1992); *Ferrari v. Grand Canyon Dories*, 32  
 22 Cal.App.4th 248 (1995). Thus, application of state law here, where a recreational  
 23 activity (diving) may be implicated, would not run afoul of federal maritime law.  
 24 *See, id.*

25 2. Counterclaimant’s Motion to Strike Affirmative Defenses Ten  
 26 and Fourteen is Premature Because the Cause and Origin of the  
 27 Fire is Unknown

1           Moreover, it would be premature to mechanically apply Counterclaimant’s  
 2 suggested analysis at this point in the litigation, where neither the “risk” involved,  
 3 nor the parties’ respective relationships to the risk-producing activity (*e.g.*, the  
 4 cause of the fire and the cause of injury or death) have been identified. *See*,  
 5 *Knight*, 3 Cal. 4<sup>th</sup> at 314-316 (characterizing defense as addressing “particular” and  
 6 “known” risks); *see also*, Fed. R. Civ. P. 26(b)(1) (framing scope of discovery in  
 7 terms of, *inter alia*, matters that are relevant to the claims or defenses at issue, and  
 8 the importance of the discovery in resolving the issues at stake in the action).<sup>10</sup>

9           The FBI, the ATF, the USCG, the NTSB and the U.S. Attorney’s Office  
 10 have been investigating the fire for over four months, but the cause and origin of  
 11 the fire is still unknown. *See, e.g.*, Kuhne Decl. Exhibit D at 2 (last line). Thus, no  
 12 one can yet say what “risk” caused the fire, or how it started. Was the “risk” the  
 13 possibility of a fire sparked by an over-charged or defective lithium ion battery, or  
 14 a faulty charging cord brought aboard by one of the CONCEPTION’s passengers?  
 15 Was it the “risk” a passenger falling asleep in their bunk with a lit cigarette in their  
 16 mouth? Was it arson? An explosion? A flash fire? Or was it something else?  
 17 Simply put, no one knows who or what started the fire, what the nature of the  
 18 “risk” in question was, or whether there is any connection between the cause and  
 19 origin of the fire (*i.e.*, the “risk”) and the injuries and deaths in question. Until  
 20 those questions are answered, it would be premature to strike these defenses and  
 21 thereby potentially diminish or restrict the parties’ ability to conduct discovery on

22 \_\_\_\_\_  
 23 <sup>10</sup> Counterclaimant’s request to strike Petitioners’ Tenth and Fourteenth affirmative  
 24 defenses now also ignores the fact that other claimants are likely to appear in the  
 25 Limitation Action. No one knows what claims or counterclaims they may file,  
 26 what theories they may pursue, or whether assumption of risk may ultimately  
 27 afford a defense in the context of those theories. Granting the Motion now, rather  
 28 than deferring a ruling or denying the Motion without prejudice, could deprive  
 Plaintiffs’ of their right to assert assumption of risk as an affirmative defense in  
 circumstances where it may unquestionably apply.

1 these critical issues. *See, Knight*, 3 Cal. 4<sup>th</sup> at 314-316; *see also*, Fed. R. Civ. P.  
2 26(b)(1).

3 Indeed, in each of the cases cited by Counterclaimant (most of which  
4 involved the Jones Act, which specifically prohibits application of assumption of  
5 the risk), the “risk” in question was known, and not one of them involved a motion  
6 to strike assumption of risk as an affirmative defense *before the facts underpinning*  
7 *the cause of the incident had been identified*. *See, Socony-Vacuum Oil Co. v.*  
8 *Smith*, 305 U.S. 424, 426 (1939) (considering propriety of jury instructions where  
9 Jones Act seaman was injured by an unseaworthy condition of which he had prior  
10 knowledge); *Movable Offshore Co. v. Ousley*, 346 F.2d 870, 872 (5<sup>th</sup> Cir. 1965)  
11 (affirming denial of defendant’s motion for judgment notwithstanding the verdict  
12 in favor of offshore drill rigger who was injured while attempting to align holes on  
13 drill rig members that he knew to be askew); *King v. Testerman*, 214 F.Supp. 335  
14 (E.D. Tenn. 1963) (stating “rule” regarding assumption of risk in *dicta*, but not  
15 reaching affirmative defense issue because plaintiff failed to establish liability);  
16 *Barber v. Marina Sailing, Inc.*, 36 Cal. App. 4<sup>th</sup> 558 (2d Dist. 1995) (reversing  
17 summary judgment where experienced sailor lost finger in sailboat’s bowline while  
18 casting off from dock); *Simeonoff v. Hiner*, 249 F.3d 883, 888-889 (9<sup>th</sup> Cir. 2001)  
19 (stating “rule,” then considering comparative fault of Jones Act seaman who  
20 walked under piece of equipment known to be broken after being ordered to do  
21 so); *Edwards Leasing Corp. v. Uhlig & Assoc., Inc.*, 785 F.2d 877, 886-887 (11<sup>th</sup>  
22 Cir. 1986) (discussing plaintiff’s “written acknowledgement, not assumption” of  
23 risk, and finding damages award should be reduced to account for plaintiff’s post-  
24 acknowledgement conduct); *DuBose v. Matson Navigation Co.*, 403 F.2d 875, 877-  
25 878 (9<sup>th</sup> Cir. 1965) (finding District Court applied contributory negligence, not  
26 assumption of risk, to diminish recovery of Jones Act seaman who knew of injury-  
27 causing condition, but continued to confront it rather than report it to his

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 supervisors); *Urian v. Milstead*, 473 F.2d 948, 950-951 (8<sup>th</sup> Cir. 1973) (Plaintiff  
2 injured from fall during attempted disembarkation from pleasure craft by climbing  
3 over bow rail and lowering herself 6-10’ to adjacent beach); *Manning v. Gordon*,  
4 853 F.Supp. 1187 (N.D. Cal. 1994) (considering assumption of risk in context of  
5 lawsuit between owners and skippers of yachts that collided during a sponsored,  
6 organized yacht race); *Tate v. C.G. Willis, Inc.*, 154 F.Supp. 402 (E.D. Va. 1957)  
7 (barge crewmember fatally injured during fall from barge he attempted to board at  
8 unsafe point in near darkness); *Gleason v. Adelman*, 2000 Mass. App. Div. 305  
9 (2000) (collision among participants in yacht race).

10 None of the opinions cited by Counterclaimant support her contention that  
11 assumption of the risk can be stricken as an affirmative defense before the “risk” is  
12 known, before the parties’ respective relationship to it has been determined, or  
13 before the cause of injury is known. *See id.*, and compare with, *Knight*, 3 Cal. 4<sup>th</sup> at  
14 314-316 (discussing defense in the context of “particular,” “known” risks). Until  
15 discovery can be conducted on those critical issues, an Order striking the Tenth  
16 and Fourteenth Affirmative Defenses would be both premature and contrary to the  
17 “no possible set of facts” standard upon which Counterclaimant’s Motion relies.  
18 *See, e.g.*, 8:12-20, 15:20-23.

19 **D. THE SIXTEENTH AND EIGHTEENTH AFFIRMATIVE**  
20 **DEFENSES PROPERLY INVOKE CALIFORNIA CIVIL CODE SECTION**  
21 **3294**

22 1. Decedent Was a Non-Seafarer Allegedly Injured In California  
23 Territorial Waters

24 The Sixteenth and Eighteenth affirmative defenses are state law affirmative  
25 defenses directed to the state law remedies available to the Counterclaimants.  
26 When non-seafarers die in the territorial waters of a state, the United States  
27 Supreme Court has confirmed that state law may supplement maritime remedies.

1 *Yamaha Motor Corp v. Calhoun* 516 U.S. 199, 216, 116 S. Ct. 619, 133 L.Ed.2d  
 2 578 (1996). The Court recognizes that preemption may occur when “Congress has  
 3 prescribed a comprehensive tort recovery regime to be uniformly applied, [as]  
 4 there is [ ] no cause for enlargement of damages statutorily provided.” *Id.* While  
 5 Congress has not spoken as to remedies for non-seafarers in territorial waters, it  
 6 has **expressly** preserved the application of state law in territorial waters through  
 7 Section 7 of the Death on the High Seas Act. *See*, 46 U.S.C. § 30307(c) (formerly  
 8 46 U.S.C. app §761-768); *see also*, *Yamaha*, 516 U.S. at 215-216.

9 Counterclaimant’s scholarly exposition regarding irrelevant maritime concepts  
 10 ignores binding U.S. Supreme Court precedent that provides for potential state law  
 11 supplementation on a case-by-case basis. *See, e.g., Yamaha*, 516 U.S. at 215-216.  
 12 Nothing in Counterclaimants’ pleading forecloses them from dipping into  
 13 California law to so supplement regarding punitive damages. *See, id.* If Petitioners  
 14 are not allowed to assert state law defenses to those state law claims now, they may  
 15 “be left hanging” when Counterclaimants make that choice later on.

16 *Yamaha* is squarely on point. In *Yamaha*, a young girl was killed while  
 17 operating a jet ski in territorial waters. The question before the Court was whether,  
 18 after *Moragne*, state law remedies – including punitive damages – remained  
 19 applicable for accidents occurring in territorial waters involving persons not  
 20 engaged in a maritime trade. *Id.* at 205. Holding that state law remedies were not  
 21 entirely displaced, the Court affirmed the Third Circuit’s finding that *Moragne* did  
 22 not place “a ceiling on recovery for wrongful death” but rather filled a gap where  
 23 no remedy had previously been available for wrongful deaths occurring in state  
 24 territorial waters. *Id.* at 214.

25 Counterclaimant cites to *Exxon v. Baker*, arguing the case holds that the  
 26 general maritime law judicial rulings providing for recovery of punitive damages  
 27 “preempts” California Civil Code §3294, but her argument overstates the reasoning

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 and holding of that case. *See*, Mem. 5:23-6:1. At the outset, the pin cite to page 493  
2 reveals no authority for the position stated. That page addresses rationales for  
3 awarding punitive damages generally (retribution/deterrence) and a discussion of  
4 the degrees of conduct required to warrant an award of punitive damages. To the  
5 extent that *Baker* addresses pre-emption at all, it examines Exxon’s claim that the  
6 Clean Water Act, a federal statute, preempts other remedies and rejects that  
7 argument, finding no indication that Congress intended for the CWA to occupy the  
8 field regarding water pollution damages. As such, Counterclaimants’ reliance on  
9 the case is misplaced. *Exxon Shipping Co. v. Baker* 554 U.S. 471, 488-489 (2008).

10 Given that the maritime law presents no bar to Counterclaimants’ potential  
11 invocation of Civil Code §3294, *Yamaha*, 516 U.S. at 202, Petitioners are entitled  
12 to assert defenses to any such state law claims. Counterclaimant’s arguments  
13 regarding delay and “clutter” have no merit; Counterclaimant has no more certain  
14 understanding of what remedies other claimants will pursue than the Court or  
15 Petitioners do, and she has given no explanation of how assertion of state law  
16 defenses in response to potential state law remedies will delay these proceedings.  
17 Counterclaimant’s motion to strike the Sixteenth and Eighteenth affirmative  
18 defenses should be denied.

19 2. Petitioners’ Sixteenth Affirmative Defense Is An Accurate  
20 Statement of the General Maritime Law Rules Regarding  
21 Vicarious Liability For Punitive Damages

22 The Federal Rules provide that pleadings “must be construed to do justice.”  
23 FRCP 8(e). A pleading is sufficient if it gives the opponent “fair notice of what the  
24 claim is and the grounds upon which it rests. *Bell Atlantic Corp. v. Twombly*, 550  
25 U.S. 544, 555, 127 S.Ct. 1955 (2007). While Petitioners labeled their Sixteenth  
26 Affirmative Defense as one relating to California Civil Code §3294, the principle  
27 stated therein is also an accurate statement of vicarious liability for punitive

Gordon Rees Scully Mansukhani, LLP  
101 W. Broadway, Suite 2000

1 damages under the general maritime law and it gives Counterclaimant fair notice  
2 of the defense being asserted.

3 Under the general maritime law, punitive damages are not recoverable  
4 against a vessel owner for acts of the master and crew “unless it can be shown that  
5 the owner authorized or ratified the acts of the master either before or after the  
6 incident.” *U.S. Steel v. Furhman*, 407 F.2d. 1143 (6<sup>th</sup> Cir. 1969) *cert. denied*, 398  
7 U.S. 958, S.Ct. 2162, 26 L.Ed.2d 542 (1970). Further, the general maritime law  
8 provides that “punitive damages may not be imposed against a corporation when  
9 one or more of its employees decides on his own to engage in malicious or  
10 outrageous conduct. *Matter of P&E Boat Rentals, Inc.* 872 F.2d 642 (5<sup>th</sup> Cir.  
11 1989.)

12 This affirmative defense closely follows the 9<sup>th</sup> Circuit’s ruling on vicarious  
13 liability for punitive damages under the general maritime law. In *Prospectus Alpha*  
14 *Navigation Co. Ltd. v. North Pacific Grain Growers, Inc.*, 767 F.2d 1379 (9<sup>th</sup> Cir.  
15 1985), the Court adopted the Restatement (Second) §909, which provides:

16 “Punitive damages can be properly awarded against a master or other  
17 principal because of an act by an agent if, but only if,

18 (a) the principal or a managerial agent authorized the doing and the manner  
19 of the act, or

20 (b) the agent was unfit and the principal or a managerial agent was reckless  
21 in employing or retaining him, or

22 (c) the agent was employed in a managerial capacity and was acting in the  
23 scope of employment, or<sup>11</sup>

24 <sup>11</sup> A split of authority exists as to whether subsection (c) is an accurate statement of  
25 the maritime law. That issue was before the Supreme Court in *Exxon v. Baker*, but  
26 the Court was equally divided on the issue with respect to the whether the actions  
27 of a Captain could bind the principle for punitive damages. At present, no cause  
28 for the incident that gives rise to this lawsuit has been determined. In the event  
Plaintiffs argue that the Captain’s actions were causative, Petitioners do not  
concede that the actions of a managerial agent without more can serve as a basis

1 (d) the principal or a managerial agent of the principal ratified or approved  
2 the act.”

3 *Id.* at 1386.

4 Petitioners’ affirmative defense asserts that Petitioners bear no liability for  
5 the owner or managing agents (1) committing any oppressive, fraudulent, or  
6 malicious act (mirroring §909(c)), (2) authorizing or ratifying the act in question  
7 (§§909 (a) and (d)), or (3) having had advance knowledge of the unfitness of the  
8 employee or employees who committed the acts (§909(b)). As such, Petitioners  
9 gave sufficient notice of the nature of their affirmative defense to satisfy the notice  
10 pleading requirements of the FRCP.

11 **E. THE TWENTY-THIRD AFFIRMATIVE DEFENSE SIMPLY**  
12 **RESTATES THE WELL-ESTABLISHED RULE THAT THE COURT**  
13 **MUST LOOK PRIMARILY TO LEGISLATIVE ENACTMENTS, SUCH AS**  
14 **THE DEATH ON THE HIGH SEAS ACT (“DOHSA”), FOR POLICY**  
15 **GUIDANCE WHEN ADDRESSING JUDGE-MADE REMEDIES AND**  
16 **RELIEF**

17 1. *Miles* and the Recent *Batterton* Decisions Confirm Uniformity  
18 is the Rule

19 Counterclaimant goes to great lengths to characterize the *Atlantic Sounding*  
20 decision as one that effectively “curtailed” the “misnamed” the principle of *Miles*  
21 uniformity espoused by the Petitioners’ Twenty-Third Affirmative Defense. *See,*  
22 *e.g.,* Mem. 20:20-21:1. Counterclaimant even goes so far as to suggest that “[l]ike  
23 DOHSA, the *Miles* uniformity principle does not apply” to judge-made, gap-filling  
24 general maritime law causes of action like Counterclaimant’s *Moragne* wrongful  
25 death and survival causes of action, claiming instead that a decision by this Court  
26 for punitive damages against an owner. Petitioners merely assert their defense that  
27 no facts have been shown to indicate that some action on the part of the owner or a  
28 managing agent was sufficient to support an award of punitive damages.

1 to follow the precepts of *Miles* uniformity “is an invitation to reversible error.” *Id.*  
 2 at 17:28, 20:8-16. To borrow from the Memorandum, those arguments are  
 3 “demonstrably wrong.”

4 Indeed, just seven months ago, the United States Supreme Court confirmed  
 5 that the principle of *Miles* uniformity is the “rule” to which the historical reasoning  
 6 of *Atlantic Sounding* provides but an exception:

7 *Miles* establishes that [courts] ‘**should look primarily to . . .**  
 8 **legislative enactments for policy guidance,**’ while recognizing  
 9 that we ‘may supplement these statutory remedies where doing  
 10 so would achieve the uniform vindication’ of the policies  
 11 served by the relevant statutes. In *Atlantic Sounding*, we  
 12 allowed recovery of punitive damages [by a Jones Act seaman  
 13 based on his employer’s willful failure to pay maintenance and  
 14 cure], but we justified our departure from the statutory remedial  
 15 scheme based on the established theory of awarding punitive  
 16 damages for certain maritime torts, including maintenance and  
 17 cure. [However], [w]e were explicit that our decision  
 18 represented a gloss on *Miles* rather than a departure from it.

19 *Dutra Group v. Batterton*, 588 U.S. \_\_\_, 10 (2019); see also, *Jesner v. Arab Bank,*  
 20 *PLC*, 138 S. Ct. 1386, 1403 (2018) (“[e]ven in areas less fraught with foreign-  
 21 policy consequences, the Court looks to analogous statutes for guidance on the  
 22 appropriate boundaries of judge-made causes of action”) citing *Miles v. Apex*  
 23 *Marine Corp.*, 498 U.S. 19, 24 (1990) and *Blue Chip Stamps v. Manor Drug*  
 24 *Stores*, 421 U.S. 723, 736 (1975).

25 The U. S. Supreme Court in *Atlantic Sounding* recognized that “[t]he  
 26 reasoning of *Miles* remains sound.” *Atlantic Sounding v. Townsend*, 557 U.S. 404,  
 27 420 (2009). In fact, the *Atlantic Sounding* Court was careful to distinguish the  
 28 circumstances before it from those that were present in *Miles*. Specifically, *Miles*

1 addressed whether the parent of a Jones Act seaman who died from injuries  
 2 sustained aboard his employer’s vessel could use the general maritime law cause of  
 3 action for unseaworthiness to recover damages for loss of society, and whether a  
 4 claim for the seaman’s lost future earnings survived his death. *Miles*, 498 U.S. at  
 5 21; *see also*, *Atlantic Sounding*, 557 U.S. at 419 (in *Miles*, “[t]his Court . . . was  
 6 called upon to decide whether these new statutes [DOHSA and the Jones Act]  
 7 supported an expansion of the relief available under pre-existing general maritime  
 8 law to harmonize it with a cause of action created by statute.”)<sup>12</sup> By contrast,  
 9 *Atlantic Sounding* considered whether an injured seaman may recover punitive  
 10 damages for his employer’s willful failure to pay maintenance and cure. *Atlantic*  
 11 *Sounding*, 557 U.S. at 407.

12 That distinction was critical. “Unlike the situation presented in *Miles*, both  
 13 the general maritime cause of action (maintenance and cure) and the remedy  
 14 (punitive damages) were well established before the passage of the Jones Act.  
 15 Also unlike the facts presented by *Miles*, the Jones Act does not address  
 16 maintenance and cure or its remedy.” *Id.* at 420 (citations omitted). As such, it  
 17 was “possible to adhere to the traditional understanding of maritime actions and  
 18 remedies without abridging or violating the Jones Act; ***unlike wrongful-death***  
 19 ***actions, this traditional understanding is not a matter ‘to which Congress has***  
 20 ***spoken directly.’”*** *Id.* at 420-421 (emphasis added) *citing Miles*, 498 U.S. at 31  
 21 *and Mobil Oil Corp. v. Higginbotham*, 436 U.S. 618, 625 (1978). Thus, it was only  
 22 historical precedent *and the absence of an analogous Congressional remedial*  
 23 *scheme* that justified the Court’s departure from *Miles*’ principles. *See, id.*

24 \_\_\_\_\_  
 25 <sup>12</sup> Unseaworthiness as it is used today is a judge-made cause of action under which  
 26 a shipowner may be strictly liable to seamen where the shipowner fails to maintain  
 27 the ship and its appurtenances in a manner that is reasonably fit for their intended  
 28 purpose. *See, Batterton*, 588 U.S. \_\_\_\_ at 7 *citing Mahnich v. So. S.S.Co.*, 321 U.S.  
 96 (1944).

1 Last June, *Batterton* grafted the reasoning of *Atlantic Sounding*'s exception  
2 onto the uniformity rule in *Miles*, and in doing so demonstrated that Petitioners are  
3 entirely correct in asserting that Counterclaimant's *Morange*-based wrongful death  
4 and survival causes of action are subject to principles of *Miles* uniformity. *See*,  
5 *e.g.*, *Batterton*, 588 U.S. \_\_\_\_ at 11, n.6. Specifically, *Batterton* instructs that, when  
6 aligning the remedies available under judge-made general maritime causes of  
7 action, "[a]bsent a clear historical pattern, *Miles v. Apex Marine Corp.*, 498 U.S.  
8 19 (1990) commands us to seek conformity with the policy preferences the  
9 political branches have expressed in legislation." *Id.*

10 Thus, *Batterton* first looked to the reasoning of *Atlantic Sounding* to  
11 determine whether punitive damages were historically available to seamen through  
12 unseaworthiness claims. *Id.* at 10. The fact that they were not was "practically  
13 dispositive." *Id.* at 12. Finding no historical precedent, the Court then considered  
14 whether punitive damages must be made available through the judge-made  
15 unseaworthiness cause of action in order to conform its relief with that afforded by  
16 the Jones Act. *Id.* at 13. Because Congress did not provide for recovery of punitive  
17 damages under the Jones Act, "[t]he rule of *Miles* – promoting uniformity in  
18 maritime law and deference to the policies expressed in the statutes governing  
19 maritime law – prevents us from recognizing a new entitlement to punitive  
20 damages where none previously existed." *Id.* at 18.

21 Nor did policy grounds require a different result. "In contemporary  
22 maritime law, our overriding objective is to pursue the policy expressed in  
23 congressional enactments . . . it would exceed our current role to introduce novel  
24 remedies contradictory to those Congress has provided in similar areas." *Id.* at 15  
25 *citing Miles*, 498 U.S. at 33 (declining to create remedy "that goes well beyond the  
26 limits of Congress' ordered system of recovery"). That was so because, "with the  
27 increased role that legislation has taken over the past century of maritime law, we

1 think it wise to leave to the political branches the development of novel claims and  
2 remedies.” *Id.* at 15.

3 That reasoning establishes that *Miles* uniformity is a proper affirmative  
4 defense to Counterclaimant’s judge-made wrongful death and survival causes of  
5 action. Like the unseaworthiness cause of action at issue in *Miles* and *Batterton*,  
6 which arose after the Jones Act was enacted in 1920, *see Mahnich*, 321 U.S. 96,  
7 “[t]he DIGNAMS’ claims spring from judge-made, general maritime law” that was  
8 created by *Morange*, 50 years after Congress enacted the Death on the High Seas  
9 Act in 1920. Mem. 4:5; *see also, Moragne v. States Marine Lines*, 398 U.S. 375  
10 **(1970)** (emphasis added). Therefore, Counterclaimant’s claims lack the historical  
11 context that justified *Atlantic Sounding*’s departure from well-established  
12 uniformity principles. *Batterton*, 588 U.S. \_\_\_ at 1 *citing Atl. Sounding Co. v.*  
13 *Townsend*, 557 U.S. 404, 424-425 (2009). Under the reasoning of *Batterton*, any  
14 relief Counterclaimant (or any other claimant) may seek through *Morange*  
15 wrongful death or survival causes of action must therefore conform to the  
16 Congressional scheme outlined in DOHSA. *See, Batterton*, 588 U.S. \_\_\_ at 11,  
17 n.6.

18 And despite the Memorandum’s unsupported claim that neither *Miles* nor  
19 DOHSA “obtain in this case,” even *Moragne* instructs that just the opposite is true.  
20 In fact, the Supreme Court has expressly and repeatedly identified “[b]oth the  
21 Death on the High Seas Act and the numerous state wrongful-death acts” as  
22 “persuasive authority” for questions about the proper measure of damages  
23 available under a *Morange* cause of action. *Moragne v. States Marine Lines*, 398  
24 U.S. 375, 408 (1970); *see also, Miles*, 498 U.S. at 29-30 (describing *Morange* as  
25 “the extension of the DOHSA wrongful death action to [state] territorial waters”);  
26 *Sea-Land Servs. v. Gaudet*, 414 U.S. 573, 584 (1974) (citing to *Morange* and  
27 referring to DOHSA and state wrongful death statutes as “useful guides”).

1 Counterclaimant has asserted judge-made claims for wrongful death and  
 2 survival damages arising from a death that reportedly occurred in state territorial  
 3 waters. Mem. at 4:5. The Supreme Court has repeatedly identified DOHSA’s  
 4 remedial scheme as a guide to be followed in fashioning appropriate relief for  
 5 those claims. *Moragne*, 398 U.S. at 408; *Miles*, 498 U.S. at 29-30; *Gaudet*, 414  
 6 U.S. at 584. *Miles*, and more recently, *Batterton*, instruct this Court that  
 7 Counterclaimant’s causes of action and the relief she seeks must conform to well-  
 8 established uniformity principles. *Batterton*, 588 U.S. \_\_\_ at 15 citing *Miles*, 498  
 9 U.S. at 33. Petitioners asserted those principles as their Twenty-Third Affirmative  
 10 Defense to Counterclaimant’s claims. They have every right to do so, and  
 11 Counterclaimant’s request to strike Petitioners’ *Miles* uniformity affirmative  
 12 defense should be denied.

13 **III. CONCLUSION**

14 In light of the foregoing, Petitioners respectfully request that the Court deny  
 15 Counterclaimant’s Motion, in its entirety. Alternatively, Petitioners ask that the  
 16 Court either defer ruling on the instant motion until after the July 1, 2020 deadline  
 17 for Claimants to file claims and/or the legal and factual aspects of the case are  
 18 more fully developed, or that the Court grant leave to amend.
