

# PRODUCT IMPROVEMENT

## **NEW 2ND STAGE ADJUSTMENT ORIFICE**

**PLASTIC ADJUSTMENT ORIFICE, p/n 11-500-109**

***THIS BULLETIN IS TO INFORM DEALERS AND SERVICE TECHNICIANS THAT A NEW PLASTIC ADJUSTMENT ORIFICE IS NOW IN USE ON THE SCUBAPRO G250 AND G200 2ND STAGES. IT IS ALSO INCORPORATED IN THE NEW G500 2ND STAGE.***

This plastic adjustment orifice replaces the gold plated orifice, p/n 11-109-109, in all applications. It is also interchangeable with the R190, M5 POLAR, M50 and Balanced Adjustable 2nd stage plastic orifice, p/n 11-195-110.

This new orifice is a high strength thermoplastic, lighter in weight, impervious to corrosion and much more resistant to damage and nicks caused by improper handling.

It utilizes the same o-rings previously designated in the schematics for the 11-109-109 and 11-195-110 orifices.
