

## Who will benefit from Co-Ownership?

Adventurers, Explorers, Marine Photographers - Scuba Divers.

*“Responsible, Experienced Divers who want to dive and explore the very best diving sites the world has to offer”*

Couples that would like to experience a true adventure of sailing and diving without the inherent financial expense associated with actual yacht ownership.

*The Ultimate Diving Adventure is all about unlimited diving at the very best international diving locations of choice without having to stand in queues at airports, travel to, rent substandard diving equipment, and the list goes on and on...*

Fact is, onboard a comfortable fully equipped dive-orientated yacht is merely lifting the anchor in the evening and setting sail to the next diving site while Co-Owners relax in a comfortable environment even going to bed early and waking up refreshed at the new dive site the next morning.

What about dive site visibility?

Onboard a yacht we are not limited to a location, for instance, limited visibility on a wreck or reef, we lift the anchor and set sail to the next diving site or even the next island.

*The Ultimate Adventure is about diving without limitations at the best international locations of choice.*

*The Yacht,*

The Hallberg Rassy yacht will be fully equipped from a fast Starlink internet connection to the very best-rated diving equipment.

### *The Ultimate Diving Adventure is about Co-Ownership*

Regardless of the time period onboard,

Where the CO onboard for 2 days, 2 weeks, or 2 months, when he or she makes the decision to end the CO agreement the full amount will be re-reimbursed in full..

*The Ultimate Diving Adventure Co-Ownership is not based on a business participle but solely on private yacht ownership.*

A CO is a legal rightful yacht owner, without the operational expenses associated with yachting.

To conclude,

Three separate workings, relaxing, or dining areas: inside the salon, outside the salon, and then the spacious deck for daytime relaxing while at anchor.

Excellent finish, built to the highest standards, with many tried-and-tested features that have proven their reliability over decades, as well as during recent ocean crossings.

This yacht is a top-pedigree world-cruising yacht with good sailing performance for fast ocean passages (200 plus nm/day)

Designed and certified to accommodate 8 people in comfort on board at all times.

She is truly an impressive but practical yacht.
