

HT 7 Series Information Console

Dacor's finest information console includes an underwater pressure gauge and depth gauge to deliver all the information you need at a glance. Features a digital dive counter, surface interval timer, and bottom timer. Analog pressure gauge measures up to 4500 PSI/30,000 kPa with color coded scale to indicate low or overfill pressures. Audible sonic alarm and low-pressure warning light indicate low remaining air. Back-lit gauge face illuminates for low light conditions. Built-in thermometer registers from 15° to 130° F/-10° to 55° C. Available in feet and metric models.

- Low-pressure sonic alarm, warning light
- Back-lit gauge face
- User-replaceable battery
- Pressure and depth gauge
- Maximum depth indicator
- Digital dive counter
- Digital surface interval timer
- Digital bottom timer
- Thermometer

HT 2 Series Information Console

Includes all the same fine features as the HT 7 without the digital readouts. Available in feet and metric models.

- Low-pressure sonic alarm, warning light
- Back-lit gauge face
- User-replaceable battery
- Pressure and depth gauge
- Maximum depth indicator
- Thermometer
