LUNA 2.0
new

Designed for easy readability, Luna 2.0 wrist-mount dive computers feature a high-contrast large display screen and bright LED backlight. Rated down to 120 meters, Luna 2.0 dive computers offer reliable performance in a low profile design using oil filled technology. With the Luna 2.0, your dive data has never been easier to read.

SCUBAPRO

LogTRAK 2.0 is a cloud-based mobile dive logbook for downloading, storing and sharing your dive logs, reviewing key dive data, adjusting dive computer settings and more! Download from the App Store for iOS and Google Play Store for Android.

SCUBAPRO.COM

■ EASY TO READ SCREEN
Wide, high contrast black and white LCD display screen with large characters and a bright LED backlight.

■ THIN, LOW PROFILE
Slim thermoplastic housing utilizes oil fill technology for reliable performance.

■ BLUETOOTH® LE INTERFACE
Lets you download dives to any iOS or Android device or PC/Mac. Firmware can be user updated.

■ TWO BUTTON CONTROL
Intuitive menu and control makes it simple to operate.

■ MULTIPLE DIVE MODES
Choice of 2 algorithms:
Predictive Multi-Gas Buhlmann ZH-L16 ADT MB or ZH-L16+GF (Gradient Factor). Nitrox compatible (100%) with 3 selectable gases. Three dive modes: Scuba, Gauge & Apnea.

■ COMFORTABLE WRIST STRAP
Includes a soft flexible blue silicone wrist strap with stainless clasp.

■ LUNA 2.0 AI (WITH AIR INTEGRATION)
Air-integration monitors tank pressure and provides true remaining bottom time(RBT) calculations based on the workload from breathing. Optional heart rate monitor (05.060.020) records heartbeat and skin temperature that can be factored into the decompression calculation along with workload.
