## THE LEGEND

The W2 is the new backzip wetsuit from Waterproof. To release yet another stunning collection is Waterproof's way to celebrate the company's 25th anniversary as manufacturer of high-end exposure suits. After all the excitement created by the newly launched W1 frontzip suit, the W2 backzip collection had to exceed our current line, so the task set for our designers was challenging.

The result is the W2 being available in two versions, a 5mm or 7mm full suit, both surpass our expectations by far.

Features include a stunning anatomical Gender Specific design, comfort front neck zipper, HexTex lining and an interesting moulded rubber kneepad featuring a hinge effect.

This full suit is normally used in combination with either a hooded ice vest, hooded under vest or a separate hood, thus catering for all the needs a diver may have.

- 3D Sculpted Suit - With pre-bent arms and legs for maximum anatomical fit.
- Gender Specific Design provides comfortable lift and support.
- Microcell CR neoprene.
- HexTex inner lining.
- Back zipper YKK #10 Vislon Zipper. Rated best quality zipper. A stop function prevents the slider from getting stuck.
- Generous double seals made from glide skin neoprene with zipper at arms and legs.
- Kneepads - 3D moulded vulcanized rubber kneepads. With the "hinge effect".
- Inside neck smooth skin lining.
- Double thread stitch and all ends knotted together.
- Wave flex panels in the hollow of arms and legs.
- No restraining seam guidance at arms and legs.
- No four seam crossings.
- Back zipper with stretch panels.
- Open cell neoprene opposite to the spine pad for an ultimate dry seal.
- Spinepad and spine padding.

## FEATURES AND DETAILS

**FORM MOLDED VELCRO TABS**  
Quality is in all the details. New moulded TPU (eco) teeth, sticks only to the assigned Velcro part.

**COMFORT ZIPPER**  
Fully gusset "comfort Zipper" to relieve stress on the surface.

**SPINE PAD**  
10mm thick and pre-shaped to fit neck area.

**PADED ELBOWS**  
Toughtex provides abrasion resistance and shock protection.

**STRETCH PANEL**  
Form fitting wave flex back panel.

**ANATOMICAL SCULPTING**  
Pre-bend arms and legs provides a perfect anatomical fit.

**ANATOMICAL SCULPTING**  
Pre-bend arms and legs provides a perfect anatomical fit.

**GENDER SPECIFIC STYLING**  
Provides comfortable lift and support.

**HINGE EFFECT**  
Knee pad constructed to follow the leg movements.

**BRONZE SLIDER**  
Provide consistent ease of operation and hard-core durability.

**KNEE GUARDS**  
Anatomically shaped, 3-D knee/shin guards provides hard core abrasion protection.

**HEXTEX INNER LINING**  
A special shape and material that slows down the water movement in the suit. Extremely comfortable.

**HIGH VISIBILITY**  
Reflective logo on the sleeve.

**A SEAT THAT GRIPS**  
Coating that provides a non-slip grip and abrasion protection.

**REINFORCED SHOULDERS**  
Critical area abrasion and anti-slip protection.

## ACCESSORIES

**W1 Overvest**  
A vest that combines 5 mm of superior grade neoprene with our special knitted I-span lining and featuring our HAVS hood technology.

**U1 Undervest**  
Waterproof coupled an anatomically sculpted 2mm under vest to our trend setting next generation H1 hood with HAVS technology.

**G1 5mm 5-finger**  
**G1 5mm 3-finger**  
**G1 7mm 3-finger Semidry**

- 3-D shaped
- Glideskin seal
- Pre bent fingers
- Extra long YKK zipper
- Palm Antislip grip
- I-Span superstretch nylon
- Bonded Hi-Quality Nylon thread
- Long zipper puller

**H1 Hood 3/5mm**  
**H1 Hood 5/7mm**

- 3-D shaped
- Glideskin seal
- HAVS system (double vents)
- I-Span superstretch nylon
- Bonded Hi-Quality Nylon thread

**B1 Boots**  
Tough 6.5mm semi-dry boots with an extra long zipper for easy donning. The heels and toes are strengthened and the boot has an angled design for less stress while finning.
